

**WELCOME TO STEVE CARDNO**, Australia's longest serving Creation Artist. Steve will do artwork for our team in 2010. Steve was the first artist John Mackay appointed many years ago, when the Creation Science ministry

first began and he became the key illustrator for the Creation magazine which John edited for many years. Pray for Steve and for all of the projects, particularly the 200m mural at the Gympie Outdoor Museum, which will walk people through Creation, the Fall, Noah's Flood, Babel and the Law of God. It will be one of Australia's largest murals, showing people real history from Adam to the arrival of the Australian Aboriginals and Europeans. Now's the time to support the mural project.

**GOOD NEWS FROM IRELAND** as we received a phone call from Pastor Mark of Caryduff Baptist where John preached on Remembrance Sunday 8th Nov 2009. In Ireland lots of non Christians attend Church Services on this day to remember the fallen from past and present wars. John shares "As I was setting my laptop up in the pulpit for a power point presentation, I discovered I had left my UK laptop plug adapter back in the B and B when I had rushed out to do a mini Sunday morning debate on the BBC for a very popular breakfast show before church. Now as church began there was no time to get it. I suspected my battery would fail somewhere through the ppt, so it was obvious I couldn't use my ppt for the church service. All my prep had to rapidly be revised - what should I do now? I felt a real leading of the Lord to change some of the sermon content despite the advertised topic and I praise the Lord I did."

"Unknown to me - a man with a long track record of being anti God was there that morning. When he left after the service he stated: 'Finally I understand'. The following Wednesday morning he phoned pastor Mark and asked could he meet with him. By that afternoon the Angels were rejoicing as another name was added to the saints. His problem had been the six days of Creation." Keep praying for us in this front line ministry that we will always be open to the Holy Spirit's leading as we preach. Pray for your new fellow Christian that he will be a faithful witness to his family and friends.

**WITH SADNESS** we note the passing of Professor John Rendle-Short, who was the 2nd University of Queensland academic John Mackay asked to join the Creation Science Advisory Board in the early days. Professor Rendle-Short became firmly convinced that Genesis could be historically trusted after attending a series of meetings run by John Mackay and Ken Ham. Professor John Rendle-Short died peacefully in Toowoomba Qld on Thursday 21st January 2010. Prof was the much loved husband of Angel (deceased), and father of Hephzibah, Francesca, Hume, Johanna, Alexandra and Charlotte. May God continue to use Professor Rendle-Short's testimony even though he has now passed on to glory with Christ.

## A WORD FROM THE DIRECTOR

WHAT ARE WE? asked the museum supervisor. ANIMALS YEAH!! shouted the children in response. The children's program at Melbourne Museum was well done. It was exciting. The music was brilliant. It was colourful - and it was war against Christianity and a major reason animal violence among youth is gradual increasing .

**John Mackay**  
International Director of  
Creation Research

It's time to realise that virtually all museums which subscribe to secular naturalism, have openly declared war on the Bible's Good News: that we did not happen by accident, the universe and everything in it was deliberately created, man is not an animal, but was made in the image of God - and everything that God made was very good.

Satan and his followers know the importance of these starting points, because if we did happen by accident, the God of the Bible has no authority - we are merely animals who can derive our moral values by watching whatever animal we wish, and justifying similar behaviour. If we were not made very good, then we don't have a problem called sin which we willingly chose through Adam and Eve. Without sin, the gospel is pointless, and that is Satan's ultimate aim - to rob people of a Saviour.

The Evolutionist concept that man is just an animal is the real logic behind Queensland Premier Anna Bligh's February anti-God legislation on surrogacy in support of gays and feminism. It's also a major reason why we have set up the open-air Creation Research museum at Gympie with its Living Fossil Forest, Genesis Garden and fossil flood log jam. Visitors can walk through Genesis, the Fall, the Flood and the world from Adam to Australia. See enclosed full colour report. Support these projects with your prayers and finance now.

Remember that it was Jesus the Word, the Creator, who said... "Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creeps upon the earth." Gen 1:26

VANCE

GREAT SPECIMEN

**CANADA: VANCE NELSON** (above) leads a Creation Research field trip in Ontario Canada, taking folks to great fossil deposits and showing them the evidence of God's handiwork in Creation and the Flood. Great fossils, such as the trilobite (above right), came from these layers. Please pray for Vance – your funding helps support his ministry in Canada as we expand Creation Research around the world. We need more young men who are willing to both know their scriptures, and know their science, and do all for the Lord Jesus Christ. Pray for Vance and his family (wife Korelei and children Emily, Hope and Zoe).

HOLLY

AMY

**HOLLY AND AMY** are old friends and it was great recently to have them help out with a six-day conference. Holly came to Christ through the “Education Debate” DVD we did in Canada, and changed from a tree-hugger non-Christian, to a God-loving, dominion centred Christian. Holly and Amy were a great help on the book tables, and Holly shared her testimony of coming to Christ and where the Lord has her at the moment in youth camp work. Holly is expected to join us later this year for the Outback Creation Tour or the Fossil Collecting Tour.

**WE MEET AT LAST!** Shaun Aubrey wrote to us early last year telling us he'd come to Christ through one of our meetings on fossils. We were finally able to arrange a meeting on a very wet night in the UK. Shaun is good evidence of why this ministry matters, as Shaun's biggest problem was not that he didn't have exposure to Christianity, nor that he didn't understand it. Even his wife was a Christian who shared the gospel with him, as did the church. Shaun's problem was that he was a geology buff, and all the fossils and “facts” about rock layers convinced him the Bible couldn't possibly be true. We thank the Lord that He has led us in Creation Research to really seek His understanding on the rocks that cry out His praises. One public meeting showing Shaun how the rocks and fossils fitted into Creation and Noah's Flood and all the events of the Bible, and Shaun received Christ. Pray for him and his wife and the church he attends in the UK.

RANDALL

MARY

**UK MINISTRY** Pray for Randall and Mary Hardy (pictured) as not only are they tied up in organising Creation Research in the UK, they have a battle on the side as they are ardent home-schoolers, and the British government has been filled with gainsayers who have tried (so far ineffectively) to get all home-schooling under a secular banner. Pray for Randall and Mary as they have for the first time had to publicly take a stand on education and to face the wrath of non-Christian education officials.

SHAUN

JOHN

One public meeting showing Shaun how the rocks and fossils fitted into Creation and Noah's Flood and all the events of the Bible, and Shaun received Christ. Pray for him and his wife and the church he attends in the UK.

**EDUCATION TRENDS** Our Eastern European rep Romulus Campan, who teaches part time in the Hungarian education system, was recently compelled to attend a conference in which the leader asked them all to hold hands and meditate for one-ness of purpose and let their minds

go blank so they could achieve unity to benefit the students. As the exercise proceeded, the leader at the front stated “I sense that somebody is not with us in this”, at which Romulus Campan immediately put up his hand and loudly stated; “It’s me – I’m just sitting here reading my Bible”. When challenged by the leader as to why he wouldn’t be involved, Romulus declared “I’m a Christian, and what you’re doing is Pagan religion”. Talk about “shock and awe” tactics! Pray for Christian teachers around the globe, that they will have the courage to take a stand against such modern mystic evil, disguised as psychology and relaxation exercises.

**SIMON WITH SLUG** Simon Terry (below) is one young man your finance helps support, as he does street outreach with a Creation emphasis in the UK Midlands. Simon’s scientific specialty is slugs. Simon joined us at the end of last year at one school to speak to a group of young high-schoolers, and he brought his pet giant slug along. Simon plus slug is a hard act to beat, but we rejoice that Simon knows how to bait the hook when he goes fishing for souls the hard way on the streets of the UK, knocking on doors and sharing the gospel which begins in Genesis and finishes in Revelation. Pray for Simon, his wife Yve and their son Judah. Your funds help support this rather unique Creation based outreach.

**NOTABLE QUOTABLE CONCERNING CREATION AND CREATOR** which shows how far most churches and theologians have come since 1606. The quote has been taken from The Convocation Book of 1606 Commonly called Bishop Overall’s Convocation.

**BOOK ONE - CHAPTER ONE**

“Amongst the rest of the titles and attributes of God in the Scriptures, which are common to the blessed Trinity, these following are three, viz. Creator, Lord of lords, and King of kings; which be there applied as well to the Son of God, our Lord Jesus Christ, the second Person in the said blessed Trinity, as to God the Father, and to God the Holy Ghost. Agreeably whereunto, and not otherwise, our chief purpose being to imitate the Scriptures, in setting out and describing the Deity and dignity of our Saviour Christ, by His Almighty power, and universal government of all the world, as heir of all thing, and head of His Church; we hold it fit to begin with His Divine power of creation: and thereupon in the sense aforesaid do affirm that He in the beginning did create both heaven and earth; and that amongst the rest of the creatures which He then made, He created our first parents, Adam and Eve, from whose loins mankind is descended.

**CANONI.**

If any man therefore shall affirm with any pagan, heretic, atheist, or any other profane persons, which know not, or believe not the Scriptures, either that heaven and earth had no beginning, or that the world was made by angels, or the Devil; that the world was not otherwise made by Christ, than as we was an instrument of God the Father for the making of it; or that He did not, as God, create our said parents, Adam and Eve, he both greatly err.”

**EDITOR’S COMMENT:** So much for the so - called “21st century evangelicals” who preach evolution in places such as Moore College and many mainline Theological colleges who bemoan the falling response to the gospel and loss of Christian influence in the world, yet can’t see that they are largely responsible for it. Wake up guys and repent of your unbelief.

JOIN US FOR THE

**GOLDFIELDS EASTER CONVENTION 2010**

**CASTLEMAINE VICTORIA**

**Friday 2nd April to Monday 5th April 2010.**

Three days of wonderful Bible teaching from John Mackay as we dig for gold in God’s Word about the love that made the Creator become our Saviour. Full details phone 07 3206 4467 or [www.creationresearch.net](http://www.creationresearch.net) then Coming Events. Special Easter Monday Field Trip.

**DON'T MISS THE OUTBACK CREATION TOUR August 5th – 18th 2010 – a great time from Brisbane to Lake Eyre and back. Full details, Phone 07 3206 4467 or go to [www.creationresearch.net](http://www.creationresearch.net) home page left.**

**“DARWIN’S EVOLUTION” A TRULY GREAT DVD** Dear Creation Research I write to convey my thanks for your having sent me the new DVD in the “Darwin on the Rocks” series. Please convey my thanks and appreciation to John for another excellent film, which again has been so entertainingly presented by John in his 'croc hunter', science can be fun, approach.

This series is unique to creation science in offering broadcast quality, highly informative and challenging information that forces the viewer to think but most engagingly it has that elusive entertaining edge to it. I still find it incredible that the national TV networks can afford to ignore this highly controversial series of films but who knows in the future? Thank you again. **AN Strachan Plymouth UK**

**HIGH ANGLICAN HINDRANCE** Dear Friends We like receiving your newsletter and buying the occasional DVD. I (Patricia) especially appreciate your ministry because at age 18 (I am now 80) was converted because a young student asked me to “pretend” that I believed in Adam and Eve before he took me through the Scriptures to explain my question "Why did Jesus have to die?". I was all muddled up with teachings from my high Church of England and modernist teaching (Peake's Commentary). May the Lord continue to bless you in your ministry. Yours in Christ **Pat & Clyde Gibson Gladstone**

**YOUTUBE RESULTS** **Vikram Tilak** writes (from Stirling W.A.) I was deeply impressed and encouraged to see John on youtube speaking the truth so eloquently with the help of the Lord. May the Lord always be at your side like a brave and mighty warrior. I would love to be involved in making a difference here in Perth. At the moment though I'm enjoying following John on the website and on youtube, marveling at how much difference a little bit of light shone in the darkness of our present day world can make.

**SCOTLAND UK TV BLESSINGS** Just had the opportunity to watch a show from Gen/Rev TV (recorded 1-December - 09) (we don't have access to tv). John and Dr. Grady McMurtry discuss climate change. Really encouraged and informed and just wanted to pass along my appreciation for John's ministry. All the love of Jesus, **Leo Rose Inverness Bible fellowship**

**MY SON-IN-LAW** is a youth pastor at a Baptist Church in Kent. He has shown the first 30 minute section of Darwin On The Rocks to the youth group there. I am hoping that he will persuade the Church to order that and various others of your DVDs as part of the Church's resources. The opening scene with John Mackay referring to the bone which has no conceivable working intermediate between most mammals and humans will be remembered by those youngsters. I've never heard it mentioned before, but it is one key argument against evolution. I must search your web site further, but I think it would be very interesting to list all (or at least the most relevant 100) mammals which have that bone, in contrast to humans (and any other animals if there are any) which don't. Also we enjoyed hearing John Mackay at the recent Moriel Conference. **Best wishes Robert Higginson**

**KIWI THANKS FOR EVIDENCE NEWS** I just read your recent email on Darwin - thank you for this brief and excellent expose about where Darwin really stood. I'm a homeschooling Mum in NZ who has been privileged to attend your seminars in Auckland over the last two years with my daughter. It struck me how very faithful you have been over the years despite the hostile opposition directed against you. Because of your publications and DVDs, I have felt equipped to teach my children an alternative and truthful version of science.....one that I was not taught at school myself. Truly, I and millions of others are indebted to you for sharing your intellect, research and arguments, so that we can stand confidently in our faith and with credibility in our scientific viewpoint. Just wanted to say a hearty THANK YOU for your faithfulness, generosity, and for standing firm in the face of hostile opposition. You have a special and unique place in God's Kingdom, and He has without doubt sent you to us for this generation....I'm soooooo grateful!! Warm regards **Angie Fraser**

**ATTACHMENTS GREAT** Dear Creation Research Team, These articles are great! As a relatively new Christian, I have learned so much from this material. I have especially enjoyed 'Creation to the Cross' & 'Creation to Christmas' and have found that these two articles in particular have helped me to feel more confident in witnessing for our Lord Jesus Christ. Thank you and God bless you. PS - These articles do have a copyright on them but, can I assume that it is okay for me to distribute some of the literature if the chance arises? (Yes Jeff you go for it - the Editor. All our material is for sharing!)

**STUDENTS LEARN** God made mini beasts and creepy crawlies as some 75 students and four teachers enjoyed learning about the beautiful, clever and useful insects God made in the original good world, as Dr. Diane Eager addressed pupils at Trinity Christian in Canberra. Man's efforts to copy beetle iridescence or build robot pond skaters shows how clever God is. It was a great opportunity to share that even flies and mosquitoes started out 'very good', and still show traces of this in the useful things they do, such as recycling nutrients and fertilising flowers. How sad it has been spoiled because man disobeyed God.
