

Climbing cliffs at the extreme tip of Southern West Australia to find vertical fossil trees preserved as lime casts as this week's wild wind howled around Dr. Terry Parsons and John Mackay while we pondered some University of West Australia skeptics' questions on what is information, and one of our researchers visited with Dr Lane Craig after the recent dismal Brisbane debate, to ask him about animal death, which means we have lots of new answers on our [Ask Website](#) today, as we remind all you Aussies in SE Qld to plan to join us for the Ken Ham / John Mackay [Seminar](#) 1st September, as well as enjoying this Evidence News 16/13 with EDitorial COMment from John Mackay and the Creation Research Team worldwide.

1. NEW QUESTIONS: “ANIMAL DEATH? At a recent Debate in Brisbane Australia, Dr Lane Craig stated there's no scriptural evidence that animals started dying only after Adam sinned. Yet the New Testament says that death of people came into the world through Adam's sin, so when did animal death commence? Before the Fall of Man, or even before the Creation of Man?” [ANSWER](#) by Diane Eager.

“KIND? You creationists use the word but never define it? What do you mean?” [ANSWER](#) by John Mackay.

“INFORMATION? You claim the natural universe can't generate information, so you need a creator, but what is information? When a flat rock changes shape due to tumbling down a stream and becomes rounded, surely the new shape is new information?” [ANSWER](#) by John Mackay.
