## **Quote: Mammoth Carbon 14 Problem**

Written by Administrator Wednesday, 17 July 2013 10:44 -

'The hair on the Chekurova mammoth was found to have a carbon-14 age of 26 000 years but the peaty soil in which it was preserved was found to have a carbon-14 date of only 5,600 years.'

Radiocarbon Journal, vol.8, 1966, pp.320-321.
