## **Quote: Obama on Evolution**

Written by Administrator Friday, 19 July 2013 09:17 -

USA politics and creation with Sarah Palin being widely promoted as a creationist, Democrat Obama says: "I believe in evolution, and I support the strong consensus of the scientific community that evolution is scientifically validated. I do not believe it is helpful to our students to cloud discussions of science with non-scientific theories like intelligent design that are not subject to experimental scrutiny."

Quoted in Nature Vol 455, p448, 25 September 2008
