Quote: Evolutionary Mythology

Written by Administrator Wednesday, 24 July 2013 01:18 -

'With the failure of these many efforts, science was left in the somewhat embarrassing position of having to postulate theories of living origins which it could not demonstrate. After having chided the theologian for his reliance on myth and miracle, science found itself in the unenviable position of having to create a mythology of its own: namely, the assumption that what, after long effort could not be proved to take place today had, in truth, taken place in the primeval past.'

Loren Eiseley, Ph.D. (Anthropology), 'The Immense Journey', Random House, New York, 1957, p.199.
