

# Hear the Creation Guys in the USA

During John Mackay's first debate in the USA, the Biology Prof at the University in Tacoma conceded defeat after John's opening presentation. Soon after in Canada, four evolutionist Professors were defeated in one sitting. Such debates are a reminder that God's Truth always trumps bad science.

These events marked John's explosive and successful entry in defending Biblical Creation in North America. Since then John has debated many leaders in evolution from prestigious institutions in the USA and across the globe, including Oxford, and Cambridge in the UK. This year John is joined by young British geologist and exciting researcher and Bible teacher UK Creation Guy Joseph Hubbard.

John has been a keynote speaker at the 2014 and 2017 UKAiG Mega conferences along with Ken Ham in Birmingham, Canada's Muscoka Baptist Conventions, Warwick Easter Conventions downunder and churches throughout the USA. His many years teaching, lecturing, and researching, have enabled him to communicate to all ages. John and Joseph are the men you need to hear as they share God's Word about God's World and the Creator Christ who made it.
