Who made the dinosaurs?

What happened to the dinosaurs?

PERSONAL BACKGROUND.

John Mackay has publicly debated many leading Evolutionists and Academics from prestigious institutions such as Oxford and Cambridge and as well as Australian, Canadian, and USA institutions as well others across the globe. John's success rate is as seen on recordings available on our main web.

John Mackay has graduated in Geology as well as Genetics from Queensland University and was for many years a science teacher in both state and private secondary education systems in Queensland, finishing in the Prestigious Science Department, at Brisbane Grammar for 9 years. He also lectured in Geology at Tertiary level for Technical Education and was instrumental in establishing Creation Research in Australia. He is currently International Director of Creation Research and runs the world

class Aussie Creation Museum Jurassic Ark. John leads fossil field trips and dinosaur digs around the planet.

John has lectured and done research in USA, UK, Europe, Canada, The Caribbean, New Zealand, Australia and Asia on the evidence for Creation and Noah's Flood. Such experience has given him a practical breadth of knowledge of the overwhelming evidence against evolution. Much of John's research has been captured on film - you can see it at his talks and many of his presentations are available on DVD. Commendations by University professors for John's research and field work are available.

John Mackay is an international speaker and is the Australian Director of Creation Research. He has been keynote speaker at events such as the 2014 and 2017 UK AiG Mega conference along with Ken Ham in Birmingham, Canada's Muscoka Baptist Conventions, Australia's Warwick Easter Conventions. His many years in teaching have enabled him to communicate well to all ages.
